Achievements

70K + Users across Bangladesh	64 District Availability	15 Rewards Awarded
----------------------------------	-----------------------------	-----------------------

All in one Platform

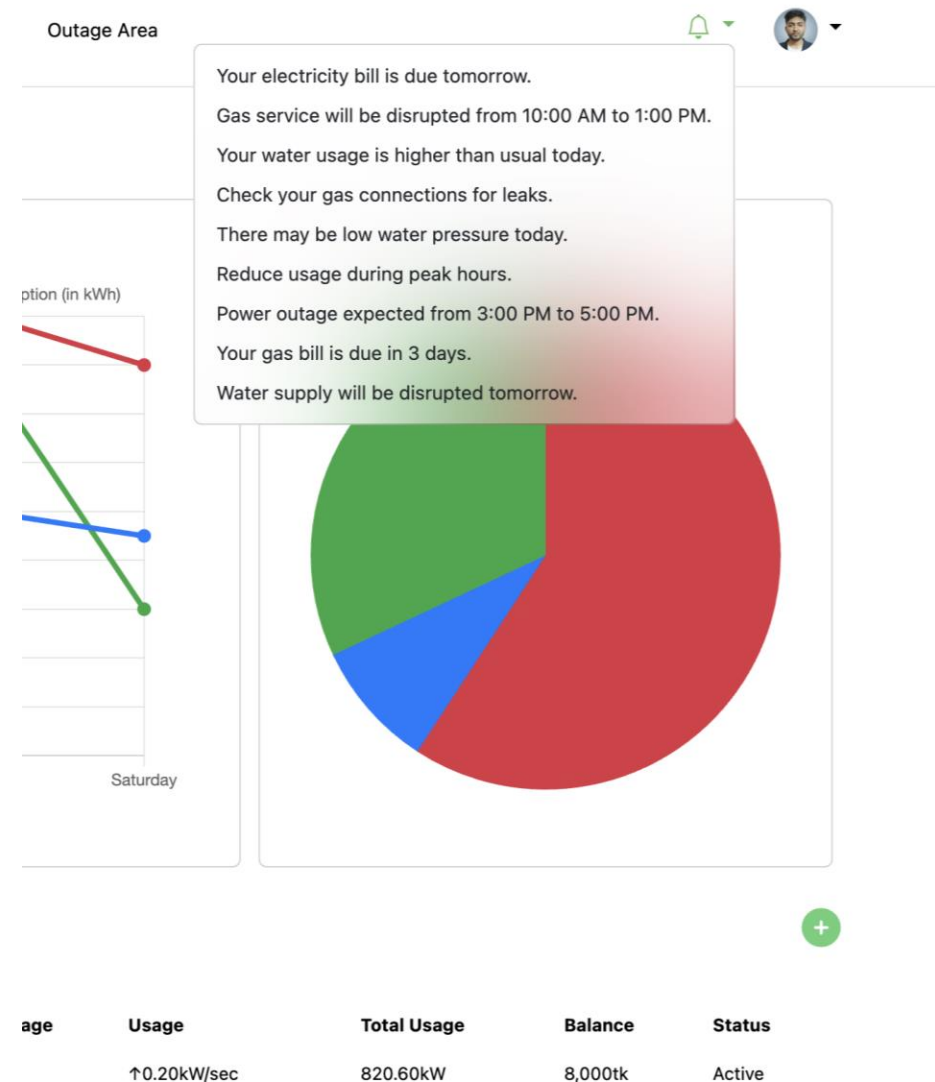

Dynamic Utility Dashboard with Real-Time Analytics

- Real-time monitoring of water, electricity, and gas usage.
- Visual representation of consumption through interactive charts and graphs.
- Instant insights into user consumption trends to help with decision-making.

Instant Alerts and Notifications System

- Real-time push notifications for consumption updates and maintenance tips.
- Bill reminders, alerts for outages, and usage insights.
- Notifications can be customized based on user preferences.

Outage Live Map Integration

- Interactive map showing ongoing or upcoming service disruptions in real-time.
- Users can track outages based on location and be alerted in advance.
- Provides an overview of scheduled maintenance for better planning.
